## IT Engineer

[mohamed73788@gmail.com](mailto:mohamed73788@gmail.com) | +20 1097352453 | Cairo, Egypt | LinkedIn: [Mohamed Saleh](#)

### SUMMARY

Detail-oriented and results-driven IT Engineer with a strong foundation in systems administration, network operations, and information security. Hands-on experience in managing Windows and Linux environments, Active Directory administration, network troubleshooting, and security hardening. Proven ability to analyze system vulnerabilities, support secure infrastructures, and apply cybersecurity best practices within enterprise environments. Certified eCPPT with a solid technical background bridging IT operations and security engineering.

### KEY COMPETENCIES

- IT Infrastructure Management
- Windows Server Administration
- Linux System Administration
- Active Directory (Users, Groups, GPOs, OU Design)
- Microsoft 365 & Exchange Fundamentals
- Network Configuration & Troubleshooting
- TCP/IP, DNS, DHCP, VPN, Subnetting
- LAN/WAN & Network Devices (Switches, Routers)
- System Hardening & Access Control
- PowerShell & Bash Scripting
- Vulnerability Assessment & Security Monitoring
- Incident Response Basics
- Documentation & Technical Reporting
- Monitoring & Performance Optimization
- IT Service Management (ITSM) & Ticketing Systems
- Endpoint Management & Patch Management
- Backup & Recovery Solutions
- Virtualization (VMware, VirtualBox)

### PROFESSIONAL EXPERIENCE

#### IT Engineer / Technical Projects (Labs & Practical Environments)

##### Independent Projects | 2024 – Present

- Deployed and managed Windows Server and Linux systems in lab-based enterprise environments.
- Designed and administered Active Directory infrastructure, including users, groups, OUs, Group Policy Objects (GPOs), and access permissions.
- Configured core network services (DNS, DHCP) and performed IP addressing and subnetting.
- Troubleshot network connectivity issues across LAN environments using Wireshark and command-line tools.
- Implemented endpoint hardening and patch management to maintain system stability and security.
- Performed vulnerability assessments and applied remediation aligned with IT operational best practices.
- Managed backup and recovery procedures to ensure system availability and data integrity.
- Utilized PowerShell and Bash scripting to automate routine IT administration tasks.
- Supported simulated incident response activities, log analysis, and system monitoring.

#### Cybersecurity Intern

##### The British University in Egypt (BUE) – Cairo, Egypt | Aug 2024

- Supported IT and security teams during controlled penetration testing and system assessments.
- Assisted in identifying misconfigurations in networks, servers, and web applications.
- Executed manual and automated scans using Nmap and Burp Suite.
- Participated in validating access controls and privilege management within IT systems.
- Documented findings and contributed to technical reports with remediation recommendations.

## IT / Penetration Testing Intern

### Instant Software Solutions | Jul 2024

- Assisted in infrastructure and security assessments for Windows-based environments.
- Supported vulnerability scanning, system enumeration, and configuration reviews.
- Collaborated with senior engineers to analyze risks and improve system security posture.
- Gained exposure to enterprise IT operations and security monitoring practices.

## EDUCATION

Bachelor of Computers and Information Technology (IT)  
Zagazig University, Egypt | 2023

---

## LANGUAGES

- **Arabic:** Native
- **English:** Professional Proficiency

---

## Soft Skills

- Problem Solving
- Attention to Detail
- Technical Communication
- Team Collaboration
- Adaptability
- Time Management & Task Prioritization
- Troubleshooting Mindset
- Analytical Thinking
- Customer-Oriented Support
- Ability to Work Under Pressure
